Assignment Ideas

Examples from MIT, Stanford
Importance of using AI to learn about AI
Examples of Assignment Ideas
@ OSU

Examples from MIT

– Concrete Examples of abstract concepts

– Production of self-assessment quizzes

– Visual summaries
  – Adobe firefly (Dal-E, Midjourney, etc.)

– Inquisitive partner
  – packback

Practical Strategies for Teaching with AI – MIT Sloan Teaching & Learning Technologies

Examples from Stanford

– Teacher Training: Simulation of Students

– Real Time Feedback/Suggestions

– Post-Teaching Feedback (classroom dynamics)

– Refreshing Expertise

AI Will Transform Teaching and Learning. Let's Get it Right. (stanford.edu)

Digital Literacy

– Critical Consumer of Media
  o Valuable Data
  o Training for an outcome

– Meredith Broussard
  o Facial Recognition
  o AI and Credit Scores
  o Ai and Crime

– Google Overcorrection (Feb. 2024)

More than a Glitch (mit.edu)

Course Assignment Ideas

– Brainstorming

– Visualization of literary worlds
  o Blockade Labs - Thinglink (Escape Rooms)
  o Connect and embed content

– Comparison Writing
  o How to not write like AI
  o Copilot

– Predicting future developments
  o Ethical

Blockade Labs Skybox AI - AI-Generated 3D Worlds

Theme Course Assignments

– Testing for Generative Ai Bias
  o Adobe Firefly

– Interview AI with Embodied Personalities
  o Replika/Sophia/CoPilot
  o Asking your own paper questions (Google Vertex)

– Imagine the future of your field
  o Copilot

AI @ OSU

– AI Hackathons

– BIIG AI for Good Grants

– Teaching and Learning Resource Center

– Michael V. Drake Institute for Teaching and Learning

– Guided Course Creation

AI Teaching Strategies: Having Conversations with Students
| Teaching and Learning Resource Center (osu.edu)
